LOUD & BAKHOOR MAKING

Kids and adults learn about OUD and other materials used to make Arabic inspired scents.

ECO FRIENDLY CANDLE MAKING

Eco-friendly candle making workshops can be a meaningful and transformative experience, combining creativity, mindfulness, environmental consciousness, and spirituality into a harmonious practice

It utilizes natural and sustainable materials, such as soy wax, essential oils and dried leaves instead of conventional paraffin wax.

Working with these natural ingredients can help foster a deeper connection with nature and promote a sense of harmony and respect for the environment.

GLASS PAINTING

Glass painting is a beautiful and creative art form that involves painting on glass surfaces using specialized paints

It could be symbols, mandalas, deities, nature, or any other spiritual motifs, as per the family's choice.

We would request the adults to create the outlines and kids to fill in the artwork just like how the senior members in the family guide and advice the younger kids to the right path.

This engaging activity is an interactive way to nurture the family bond.

ZEN GARDEN

Working with plants and creating an open terrarium allows individuals to connect with nature on a deeper level.

Plants have a calming and grounding effect on our senses, and being in their presence can help cultivate a sense of peace, harmony, and interconnectedness with the natural world

This workshop gives the guests a chance to create and curate their own world and cherish it forever.

THANK YOU, THAT'S ALL.
